ANNIE'S PROJECT
EMPOWERING WOMEN IN AGRICULTURE

*Providing women with tools to improve their risk management skills
in the complex, dynamic world of agriculture.*

Female farmers, whether farming on their own or in a partnership, realize the importance of the business side of farming. Annie's Project provides training in five areas of agricultural risk management: financial, marketing, production, legal, and human resources. Most importantly, women are able to network and develop relationships with other women in agriculture.
